

Simplified prospectus of the Subfund

LUXALPHA SICAV – American Selection

This simplified prospectus contains key information about the "LUXALPHA SICAV – American Selection" (the "Subfund"), a Subfund of the LUXALPHA SICAV (the "Company") a "multiple Subfund" company incorporated on February 5, 2004. Should you need any further information before you invest, please consult the full prospectus of the Company. Within this full prospectus, the rights and duties of the investors are fully described. The full prospectus as well as the financial reports may be obtained free of charge at the registered office of the Company, of the Central Administration (see also "Local Agents"). For details about the Subfund's holdings, please see the Company's most recent audited annual report or un-audited semi-annual report.

Investment objective and Investment policy	<p>The objective of the Subfund is to provide investors with an opportunity to invest mainly in transferable securities listed on New York Stock Exchange and to provide a consistent performance in order to achieve a regular capital appreciation, while giving ultimate consideration to capital security and portfolio liquidity. The Subfund's assets are invested according to the principle of risk diversification in equity listed on the New York Stock Exchange and US government securities (T Bills).</p> <p>The Subfund may hold liquidities on an ancillary basis (which may include on a ancillary basis units of US money market mutual funds providing daily liquidity).</p> <p>The Subfund may enter into transactions relating to options on financial instruments for a purpose of efficient portfolio management in compliance with what is provided under "Financial Techniques and Instruments" of the full prospectus and in the interest of an orderly management of its assets. Due to their high volatility, options are exposed to greater risks than direct investments in securities.</p> <p>The Category A Shares: USD Shares are denominated in USD, participate in the portfolio according to their entitlements.</p> <p>The Category B Shares: EUR Shares are denominated in EUR, participate in the portfolio according to their entitlements and seek to benefit from a specific hedging complement under which the non-EUR portfolio assets attributable to it are intended to be hedged against the EUR on a roll-over monthly basis; the hedging costs are born by the Category B.</p>
Risk's profile	<p>The risks associated with investments in equity (and equity-type) securities include significant fluctuations in market prices, adverse issuer or market information and the subordinate status of equity in relation to debt paper issued by the same company. Potential investors should also consider the risks attached to fluctuations in exchange rates, possible imposition of exchange controls and other restrictions.</p>
